

green clean series

The **Delamo GREEN CLEAN** collection of professional and home care cleaning tools exemplify quality, conserve our natural resources and are cost effective. The **Delamo GREEN CLEAN** line is manufactured in the United States using a proprietary compound molded from 100% post-consumer materials, blending scrap tires and recycled plastics. The innovative and functional **GREEN CLEAN** collection of products include trash cans, wringer buckets, lobby dust pans and more.

The **Delamo GREEN CLEAN** team of professionals are passionate and committed to recycling and preserving the environment. The team has built on their expertise and reputation for manufacturing cleaning tools by introducing its new **Delamo GREEN CLEAN** collection of recycled products. The manufacturing process saves energy, minimizes greenhouse gases, diverts tires and plastic from the landfills and contributes LEED points toward US Building Council programs.

Commercial cleaning requires solid solutions. Delamo Professional presents heavy-duty tools that reduce labor and increase value, whether for a meticulous housekeeper or the occasional Ninja Janitor.

Restroom products designed for every budget and application. Delamo presents the best combination of products for small to large restroom applications.

The Delamo Green Clean product line is our solution to help the environment and the Earth. Made in the USA and from a specially formulated material using a proprietary process combining recycled plastics and tire derived material.

Eco-Friendly Paper contains minimum of 50% post consumer recycled fibers and printed with soy based ink.
