

delamo®

greenclean

Introducing **Delamo's GREEN CLEAN**, a collection of professional cleaning tools, made in the United States and made with **UPCYCLED** materials. **GREEN CLEAN** has become the industry's highest standard of recycle-made product, produced with performance in mind while conserving our natural resources. In addition, the manufacturing process saves energy, minimizes greenhouse gases and diverts tires and plastic from the landfills, which enhances our sustainability claims.

The **Delamo GREEN CLEAN** product lines' innovative, heavy-duty design was engineered for professional and industrial use. **UPCYCLE** is a proprietary scrap tire rubber and recycled plastic compound made from up to 80% post-consumer recycled content.

Utility Can
