Premium Gel
Hand Sanitizer

The Industrial Stainless Steel **touch-free** Hand Sanitizer Dispenser offers a **durable** yet sophisticated solution to promoting **good hygiene** in high-traffic areas.

The optional steel **Floor Stand** allows you to create visible and portable **hygiene stations** where most needed. Features a small footprint design and strong stable base to prevent tipping without taking up valuable floor space. **Easy 1, 2, 3 assembly right out of the box.**

- **High-level** design to maximize **durability** in high-traffic spaces.
- **High-capacity**, refillable tank to **reduce frequent maintenance (1600 ML)**
- **Adjustable volume control** to deliver specific amount of sanitizer based on need
- Battery-operated **infrared sensors** for touch-free operation. Requires four C-batteries (not included)
- Durable, **stainless-steel** frame secured by lock and key
- Wall-mount or use with optional steel **Floor Stand**
- Compatible with **gel sanitizer** or **liquid soap**
- Operates on an **efficient motor** to minimize battery waste and maintenance
- Push to read **LED battery indicator** displays green for sufficient power and red for low battery
- **Drip tray** to contain possible spills
- **Private labeling** available on both dispenser and stand
